**FOR IMMEDIATE RELEASE**

**March 4, 2026**

---

**Updated Water Distribution Locations Announced**

The City of Shreveport will continue distributing free bottled water to residents in response to the ongoing system impacts from the recent transmission main break and the citywide voluntary boil advisory.

**Please note: Huntington High School and Lee Hedges Stadium are no longer active distribution sites.**

**City-Operated Distribution Sites**

Bottled water will be available beginning at 10 a.m. at the following locations:

- **Louisiana State Fairgrounds**

2901 Pershing Drive

- **Shreve City Shopping Center**

1273 Shreveport-Barksdale Highway

- **6140 Greenwood Road (former Brookshire's lot)**

- **Summer Grove Baptist Church**

8924 Jewella Avenue

Water is available on a first come, first served basis and will be distributed until supplies run out. Residents are encouraged to remain in their vehicles and follow on-site directions to ensure a safe and efficient process.

A separate bottled water distribution event will also take place at:

- **Walmart Supercenter (Off Bert Kouns Industrial Loop) - 9am - Noon**

**Please note that this distribution effort is not affiliated with the City of Shreveport.**

The City appreciates the continued patience and cooperation of residents as crews work around the clock to stabilize the water system and complete both temporary and permanent repairs.

Updates regarding distribution sites and the voluntary boil advisory will continue to be shared through official City communication channels.
