PRESS RELEASE

May 4, 2015

City to co-host ozone briefing

The City of Shreveport, Greater Shreveport Chamber of Commerce and AEP-SWEPCO will co-host a briefing by the Louisiana Department of Environmental Quality on ground-level ozone (smog). It will be held at 10 a.m. Wednesday at the Chamber's headquarters, located at 400 Edwards Street in Shreveport.

The briefing will cover the U.S. Environmental Protection Agency's proposal for tightening the ozone standard, the effects that this may have on the Shreveport-Bossier City metropolitan statistical area, and actions that can be taken in an effort to maintain the area's current attainment status. This event is open to the public.
